Our Service

Giving You Financial Power

We aim to use our expertise help build financial stability for our clients all over the world.

Cryptocurrency Mining/trading

In the year 2018, we ventured into cryptocurrency mining because the world was headed in that direction and we could not afford to be left behind. We developed our own mining algorithmns which gives desired results, join the revolution by allowing us mine your cryptocurrencies for you.

Forex

The foreign exchange (FOREX) market offers many advantages. Firstly, it is so large, that no single entity can control and manage the volume of transactions, or the market price. Hence, the margins are thin, and the chances of extreme price drops are low. Also, the volume of trade (about \$5.1 trillion dollars yearly) and low entry barrier allows trading to be done at any scale. With the aid of technology and experienced traders, Middlepoint takes advantage of these margins by putting calls and picking pairs which yield returns on investments

Agriculture

We develop and cultivate farmlands for mass production of agricultural produce to help feed the increasing population and make profits.
